PROFESSIONAL SUMMARY

I'm a self-taught web developer with strong skills in React.js with Redux, MongoDB, Express.js, Tailwind CSS, and Node.js. I've completed several projects, including a full-stack e-commerce (Publix Clone) website. I'm passionate about web development and constantly seek to improve my skills through independent learning. I'm seeking an entry-level web development position to apply my skills and contribute to the development of impactful web applications

CORE COMPETENCIES

- ✔ Javascript, HTML5, CSS3
- ✔ Code structure & Functional Programming
- ✔ Responsive Design
- ✔ Front-end & back-end web development
- ✔ React.js
- ✔ Git version control & GitHub
- ✔ Test driven development
- ✔ Mongo DB

PROJECTS

Publix Clone | April 2023 - May 2023

- Front-end made primarily with React.js and Tailwind CSS
- Uses REST API to find users and populate the site with items saved in their carts
- Mongo DB is used to store users and items they've added to their shopping cart
- The site uses user authentication with JSON Web Token, and passwords are encrypted

Personal Website | April 2023 - May 2023

- Developed using React.js with responsive design for optimal viewing on any device
- Features a portfolio showcasing my latest web development projects
- Designed to showcase my technical skills and creativity to potential employers
- Includes a contact section for employers to easily reach out to me, and view my resume.

WORK EXPERIENCE

Amazon

Warehouse Associate | October, 2021 - Present

- Used scanner to select products and store them in designated area.
- Quickly learned new skills and applied them to improve efficiency and productivity.

Publix

Deli Clerk | August 2020- October 2021

- Carefully prepared orders by slicing, weighing and packaging cheeses and meats.
- Delivered exemplary customer service to all guests, even in peak business periods.

EDUCATION

2020 - 2022 | Miami Dade College

Associate of Arts - Accounting

2022 - Present | The Odin Project

Learned HTML, CSS, Javascript, Test Driven Development, Object Oriented Programming, Responsive Design, version control, amongst other competencies.
